PROFESSIONAL SUMMARY

I'm a Frontend Developer with 4+ years of experience and 2+ years of building real production web apps that people actually use, including e-commerce platforms processing live customer orders. I work mainly with **React**, **TypeScript**, **Next.js**, and **Tailwind CSS**, and I can handle the backend side too when needed. Alongside freelancing, I teach Software Development at Rosebank College where I took a high-risk programming module and pushed the pass rate from 65% to 85%, moving it off the watch list. On the freelance side, I've cut client operational costs by 85% through automation and helped businesses rank at the top of search results through technical **SEO**. I care about writing clean, fast, accessible code with solid **state management**, good **UI/UX**, and cross-browser compatibility baked in from the start.

CORE SKILLS

Frontend: JavaScript, TypeScript, React, Next.js, HTML5, CSS3, Tailwind CSS, Responsive Design, shadcn/ui, Vite, Framer Motion, Component-based Architecture, State Management, Cross-browser Compatibility, UI/UX Principles

Backend: Node.js, C# (.NET MVC), Java (OOP), REST APIs, API Integration

Database & Cloud: MySQL, SQLite, Supabase, Cloud Databases

Tools & Methods: Git, GitHub, Version Control, WhatsApp Business API, Google Maps API, Performance Optimisation, Agile/Scrum, Debugging, SEO, Accessibility (a11y)

PROFESSIONAL EXPERIENCE

Frontend Developer: Comfort Funeral Services Website

2026 • [View Live Site](#)

- Built a modern, premium funeral services website using Next.js 15 with TypeScript, delivering fast performance and SEO-optimised content for better search visibility.
- Designed a fully responsive, mobile-first layout with smooth scroll animations using Framer Motion, making the site feel great on any device.
- Added 24/7 contact options throughout the site including floating contact buttons and instant-help sections to make it easy for people to reach out at any time.

Tech Stack: Next.js 15 • TypeScript • Tailwind CSS • Framer Motion • Lucide React • Component-based Architecture • Performance Optimisation

React Developer: Fen & Fern E-Commerce Platform

2025 • fenferncreations.com

- Built a production e-commerce site with WhatsApp ordering integration, processing live customer orders and cutting order time by 85% by removing manual bottlenecks.
- Integrated Google Maps API for automated delivery calculations and South Africa-specific address autocomplete, improving checkout accuracy and the overall user experience.
- Developed a responsive React/TypeScript UI with real-time pricing across 2 product forms and 6+ customisation options, handling active customer transactions.

Tech Stack: React • TypeScript • Vite • Tailwind CSS • Google Maps API • WhatsApp Business API • State Management

Frontend Developer: EJ Tours & Projects

2025 • ejtoursandprojects.it.com

- Built a production e-commerce website for a Cape Town tour operator, with WhatsApp booking integration that handles live bookings and cuts out manual order processing completely.
- Developed a responsive platform featuring 10+ tour packages, dynamic content loading, and thorough SEO optimisation, reaching top search rankings.

- Set up advanced SEO using Schema.org structured data, Open Graph tags, and geographic targeting to improve local search visibility.
- Optimised performance with vanilla JavaScript, passive event listeners, and iOS-specific mobile fixes to ensure smooth cross-browser compatibility.

Tech Stack: HTML5 • CSS3 • Vanilla JavaScript • WhatsApp Business API • Schema.org • Performance Optimisation • SEO

Junior Software Development Tutor: Rosebank College

2025

- Taught Java, C#, .NET, OOP, and software development fundamentals to diploma students through hands-on labs and live debugging sessions.
- Improved pass rates in high-risk programming modules and guided students through real-world development workflows.
- Received the Best Tutor/Teacher Award (2025) for outstanding student outcomes and teaching effectiveness.

KEY PROJECTS

Java: Zero to Knowing Stuff - Beginner Programming Resource Hub

2025 • [View Live Site](#)

A link tree of resources I designed specifically for people who are brand new to programming. The idea is simple: get your hands dirty with real code from day one. It walks beginners through the programming mindset first, then builds up their coding skills as they go, so they actually understand what they are doing instead of just copying and pasting.

Tech Stack: Java • Beginner-focused curriculum design • GitHub Pages

Success V3: Premium Web Studio Marketing Site

2026 • In Progress • [View Live Site](#)

Building a conversion-focused marketing site for a web studio with a premium SaaS feel. Includes a services grid with trust badges, a project carousel with drag/swipe controls, and WhatsApp contact integration with pre-filled messages for instant lead conversion.

Tech Stack: React 18 • Vite 5 • Tailwind CSS • Framer Motion • Lucide React • Performance Optimisation

Contract Monthly Claims System: Financial Workflow Tool

2025 • [View on GitHub](#)

Built an ASP.NET Core MVC application that streamlines monthly teaching claim approvals across a Tutor → Coordinator → Manager → HR workflow. Features include role-based authentication, automated rule checks, status tracking dashboards, and exportable HR reports. Clean UI/UX built with Bootstrap 5 and a full document handling system.

Tech Stack: C# • ASP.NET Core 8.0 MVC • Entity Framework Core • SQLite • ASP.NET Identity • Razor Pages • Bootstrap 5

Client Support Chatbot: Customer Service Automation

2024 • [View on GitHub](#)

Built an interactive customer service chatbot that answers FAQs and handles support queries automatically, cutting down manual workload and response times. Features conversation session management, a predefined knowledge base, and a typing effect for a better user experience.

Tech Stack: C# • Console Application • OOP Principles • Data Structures

EDUCATION

Diploma in IT: Software Development

Rosebank College • 2025

Higher Certificate in IT: Support Services

Rosebank College • 2023

AWARDS & CERTIFICATIONS

- Best Tutor/Teacher Award, Rosebank College (2025)
- Higher Certificate in IT: Support Services (2023)
